"RAPID RAIL" SYSTEM

WASHINGTON (AP) — Rep. Carlton R. Sickles, D-Md., has recommended that Democrats make "establishment of a rapid-rail system in the Boston-Washington corridor" a campaign plank in the Democratic party platform.

He said such a system of rapid-rail travel would make it possible to travel from Boston to Washington in less than 50 minutes, between Baltimore and New York in 1½ hours and between Baltimore and Boston in 2½ hours.

He said establishment of a rapid-rail system between the East could lead to establishment of similar systems in the Milwaukee-Chicago area and the Los Angeles-Santa Barbara area, "the most densely populated parts of the country."

He made public a letter to Maryland's comptroller, Louis L. Goldstein, who is a member of the Democratic National Committee resolutions and platform committee.

In the letter Sickles told Goldstein:

"I would hope that our platform will deal specifically with the many problems facing our country."

He then suggested the rapid-rail system, and travel in the Pres-Kennedy years ago. He said Japan has increased greatly by 1966, and observed that in Japan and Western Europe high-speed rail transportation has been successful.
